

The traditional big oven aluminum flexible duct machine has a large oven, the extra heat insulated wall to keep the oven in temperature and 4 heating tube keep temperature.

Aluminum Flexible Duct Machine AFT2 - the all-around flexible duct machine

Standard Features

- ▶ For extra large diameter
- ▶ Traditional large oven with 4 heating tubes, enhanced insulation wall for oven
- ▶ Fast & Easy for diameter changing
- ▶ Duct diameter ranging from 75~900mm
- ▶ Motor-driven glue system save the glue 30% than normal glue roller
- ▶ Welded structure, easy for transporting

Technical Data

Model	AFT 1
Tube Diameter	75~750mm(3.5"~30")
Raw Material Type	Aluminum Foil, Metalized PE T
Raw Material Thickness	0.2~0.5mm
Stainless Steel Wire Dia.	0.8~1.5mm
Strip width	35~80mm
Production Speed	Up to 8m/min
Main Power	380V/50Hz/1.5KW
Oven Heating Power	300W
Dimension	1750*850*1600mm
Weight	300Kg
