

The new designed flexible duct machine has a compact form and smart oven. Easier for transport. And the glue motor driven rolling system can save glue in big amount.

Aluminum Flexible Duct Machine AFT2 - the all-around flexible duct machine

Standard Features

- ▶ For both insulated & non-insulated duct
- ▶ Multi-function moulds
- ▶ Fast & Easy for diameter changing
- ▶ Duct diameter ranging from 75~900mm
- ▶ Motor-driven glue system save the glue 30% than normal glue roller
- ▶ Smart and compact structure, easy for transporting

Technical Data

Model	AFT2
Tube Diameter	75~750mm(3.5"~30")
Raw Material Type	Aluminum Foil, Metalized PET, PVC
Raw Material Thickness	0.2~0.5mm
Stainless Steel Wire Dia.	0.8~1.5mm
Strip width	45~60mm
Production Speed	Up to 8m/min
Main Power	1.5KW
Oven Heating Power	300W
Dimension	2750*650*1500mm
Weight	120Kg
