

The fixed moulds type automatic cutting semi-rigid aluminum flexible duct machine, easy & fast diameter changing and adjust, the best choice for the aluminum corrugated duct production.

Aluminum Duct Machine ACT-1A - the Fixed moulds & Automatic cutting duct machine

Standard Features

- ▶ Fixed moulds forming head, fast& easy diameter changing
- ▶ Vertical uncoiler with brake
- ▶ Lubricate system prevent damage to the strip surface
- ▶ Duct diameter ranging from 75~300mm
- ▶ Enhanced 7 sets of forming rollers
- ▶ PLC Touch Screen
- ▶ Welded structure, easy for transporting
- ▶ 4 & 7 corrugations on request, other sizes also available
- ▶ Saw blade cutting system
- ▶ Cut to length function

Technical Data

Model	ACT-1A
Tube Diameter	75-300mm(3"~24")
Aluminum Foil Thickness	0.06~0.15mm
Strip Width	60mm
Feeding Speed	45m/min
Corrugation number	7 (4 on request)
Cutting system	Saw blade cutting system
Main Power	1.5KW
Dimension	1800*1100*1500mm
Weight	350Kg
