

All new design aluminum flexible duct machine with more advanced automatic cutting system, working with the auto-run-off table and compressing machine, increase your production capacity three times.

Automatic Aluminum Flexible Duct Machine AFT3 - the auto cutting & high efficiency

Standard Features

- ▶ For both insulated & non-insulated duct
- ▶ Multi-function moulds
- ▶ Aluminum flexible duct
- ▶ Aluminum&PVC flexible duct
- ▶ Fast & Easy for diameter changing
- ▶ Duct diameter ranging from 50~1066mm
- ▶ Motor-driven glue system save the glue 30% than normal glue roller
- ▶ Independent Oven design for high efficiency heating
- ▶ De-coiler tension control
- ▶ High Speed Production capacity
- ▶ Automatic Cutting
- ▶ Cut to length function

Technical Data

Model	AFT3
Tube Diameter	50~1066mm(2"~42")
Raw Material Type	Single or Double layer aluminum composite(Alu.+PET+Alu.) PVC foil Rubber plastic insulation
Raw Material Thickness	0.2~0.5mm
Stainless Steel Wire Dia.	0.8~1.5mm
Strip width	35~90mm
Production Speed	Ducting Speed Up to 10 m/min
Main Power	3KW
Oven Heating Power	6000W
Cutting Manner	Automatic cutting
Function	Cut to length
Dimension	Main Machine 2000*1150*1430 Oven 1450*1050*1500
Weight	620Kg
